📁 [Portfolio](#)

🌐 [LinkedIn](#)

BS Information Systems (BSIS) student and full-stack web developer with hands-on experience building full-stack web applications using React, Node.js, Express, and MongoDB. Proven ability to develop responsive UIs, implement authentication, manage cloud data persistence, and integrate AI APIs. Seeking a Web Developer Internship to contribute to real-world production systems and gain industry experience.

PROJECTS

SpenSyd – Personal Finance Tracker with AI Integration | Live Demo : Available on portfolio

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Gemini API

- Developed a full-stack finance tracking web application enabling users to record income and expenses with secure authentication and persistent cloud storage.
- Implemented RESTful APIs using Node.js and Express.js to manage user data and financial records.
- Integrated Gemini AI API to generate personalized spending insights and financial analysis.
- Designed and implemented a responsive dashboard UI optimized for desktop and mobile devices using Tailwind CSS.
- Managed MongoDB collections for user profiles, transactions, and analytics data.

Let'em Cook – Community Recipe Sharing Platform | Live Demo : Available on portfolio

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a community-driven web platform allowing users to create, upload, and share recipes with images and detailed instructions.
- Implemented user authentication, profile management, and role-based features.
- Developed interactive features such as likes, category filtering, and user-generated content management.
- Designed scalable backend architecture using Express.js and MongoDB for handling large volumes of content.

EDUCATION

Bachelor of Science in Information Systems

Bulacan Polytechnic College | Expected Graduation: April 2027

- Dean's List (2023–2025)
- Ranked 1st in Object-Oriented Programming
- Ranked 6th in Web Development
- 3rd Place Winner, Bulacan Polytechnic College Mini Hackathon (2025)

TECHNICAL SKILLS

Programming Languages: JavaScript

Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS

Backend Technologies: Node.js, Express.js

Databases: MongoDB

Tools & Platforms: Git, GitHub, Visual Studio Code, Figma

APIs & Integrations: REST APIs, Gemini API (AI Integration)
