— SUMMARY

Full-stack web developer and BSIS student specializing in React, MERN stack, and UI/UX design. Experienced in building responsive, scalable web applications with real-world features such as authentication, data persistence, and AI integration. Passionate about writing clean code, solving problems, and collaborating on impactful products.

— EDUCATION

Bulacan Polytechnic College   Expected April 2027
Bachelor of Science in Information Systems
- Honors: Dean's List (2023–2025)
- Academic Excellence**:** Ranked 1st in Object-Oriented Programming (OOP) and 6th in Web Development among peers.
- Awards**:** 3rd Place Winner, Bulacan Polytechnic College Mini Hackathon (2025).

— PROJECTS

SpenSyd: Personal Finance Tracker with AI Integration | [Live Demo](#) | [GitHub](#)
- Architected a full-stack personal finance application using React and Node.js, enabling users to track income and expenses in real time with persistent cloud data.
- Integrated the Gemini API to provide users with a smart AI assistant for personalized financial insights and spending analysis.
- Designed a modern, responsive dashboard using Tailwind CSS and Figma, ensuring a seamless user experience across mobile and desktop devices.
- Managed data persistence and complex user records using MongoDB and Express.js.

Let'em Cook: Community Recipe Sharing Platform | [Live Demo](#) | [GitHub](#)
- Built a community platform where users can upload and share recipes, including images, ingredients, and cooking instructions.
- Implemented interactive features allowing users to like recipes, manage personal profiles, and filter dishes by categories like Main Course or Dessert.
- Engineered a robust backend using MongoDB and Express to handle community-generated content and secure user authentication.

— SKILLS & INTEREST

Core Stack: React, JavaScript, Node.js, Express, MongoDB
Frontend: HTML, CSS, Tailwind CSS
Tools & Design: Visual Studio Code, Figma (UI/UX Design), Git/GitHub.
Interests: Artificial Intelligence integration (Gemini API) and community-driven web platforms
